

■ NETWORK MANAGEMENT

Full configuration management services to optimize your computer network for speed, reliability, and usability. All ProfitKey products require a solid and properly configured network infrastructure, and now ProfitKey is available to perform this task.

ProfitKey Capabilities:

- Install new systems
- Update operating systems and software
- Plan and manage information systems security
- Diagnose and resolve performance issues

■ INTERNET SERVICES

We can help you to put your company on the internet. We can provide:

- Site security
- Configuration of your information systems targeted at the appropriate audience
- Determine availability and access of information for your audience

■ PRE-SALES NETWORK PLANNING

Plans include hardware, software, and additional services involved in running the network. Some of these services may include internet access, remote access, and e-mail service.

- On-site or telephone assistance in the planning of a new network design
- Implementation or upgrade of an existing network

"E.I. Dupont spent a lot of time and effort in trying to resolve a very slow performance on our WinNT network.

"The new IT Group was able to detect the problem and fix it. Today, our performance is great."

Charlie Tupes
E.I. Dupont

■ PLATFORM CHANGE PLAN

We are able to assist you in the decision concerning implementing and migrating from one platform to another, as well as aiding in the transfer.

■ NUMEROUS SITES

If you have more than one location in your company, we can help you remotely access your location in the following ways:

- Work while you are on the road
- Work from home
- Share information between offices

■ ANNUAL NETWORK MAINTENANCE PLANS

We now offer annual support plans to assist you in resolving network and application problems as they occur often before you know about them. We monitor your systems on a regular basis, make your networking issue our priority, and function as a network administration department that you can easily afford. We even offer twenty-four hour a day, seven days a week support, should you need it.

Interested? Feel free to contact your Account Manager at 800.331.2754 or any of the IT group members via e-mail: it-guy@profitkey.com
